

EnviroDEFENSE® Septic+

EnviroDEFENSE® Septic+ is a powdered product for use in septic tanks.

The product contains a synergized blend of six selectively chosen Bacillus organisms + micronutrients and biostimulants, all of which have been selected for accelerated degradation of organic wastes and toilet paper in a septic tank application.

The bacteria have been selected for their ability to degrade organic compounds such as grease, fats, proteins, starch, sugars, and cellulose.
